In order to strengthen our dynamic and motivated team of developers, we have an immediate vacancy for a

Software Developer f/m/d in the field of avionics

We are an innovative IT company from Linz and are located in the harbor district at the heart of the city. In addition to developing operating systems, hardware and applications for the avionics area, our focus is on certified virtualization solutions based on Microsoft Windows Server.

Your duties

- Collaboration on architecture, design, implementation and further development of our avionics solution
- Design and implementation of new applications for our system (.Net Core environment)
- Interface development (REST)
- 2nd/3rd level support for adapting our solution to tricky airline requirements

You can offer us

- Excellent IT skills, ideally underpinned by a relevant course at a university/college or specialist higher technical education institute
- Sound knowledge of various software technologies, in particular .NET/C# and Python
- Ideally also knowledge about network technology
- Natural creativity, dedication and enjoyment of teamwork
- A proactive and curious approach to professional and personal development
- Very good knowledge of German and English

We can offer you

- Responsibility for your own working area
- A comprehensive flexitime system that ensures flexible working hours, as well as the opportunity to work from home
- Interesting and globally oriented projects at the cutting edge of technology
- Varied work with involvement in the entire software lifecycle
- An adequate training period in a helpful team, with a mentor by your side
- Personal development opportunities with a strong focus on further training
- BGF-certified company that values healthy workplaces
- Your own parking space and good public transport links

Other feel-good benefits
